DOCTORATE IN BUSINESS ADMINISTRATION OF ESG UQAM

ESG UQAM's interuniversity Doctorate in Business Administration (Ph.D.) has been training high-calibre university researchers and teachers in business administration for nearly 40 years.

A joint venture involving four institutions, the collaboration includes ESG UQAM, HEC Montréal, Concordia University and McGill University. Thanks to this academic partnership, students in the program can pursue their studies at ESG UQAM while also enjoying privileged access to resources within the other participating universities.

At the end of their studies, the majority of graduates integrate into the university community, while others move on to private companies, public institutions, and management consulting firms.

4-YEAR PROGRAM STRUCTURED IN PHASES

- Phase I = Preparatory training (if deemed necessary)
- Phase II = Coursework (30 credits)
- Phase III = Thesis proposal and thesis (60 credits)

ESG AND RESEARCH

Recognized for the quality of its practise-oriented teaching methods, the excellence of its applied research, and its international presence, the UQAM's School of Management (ESG UQAM) asserts its leadership with a bold vision for the future.

With 11 research-innovation chairs in partnership, 2 Canada Research Chairs, 2 observatories, monitoring networks, laboratories, facultative or inter-institutional groups, ESG UQAM produces a unique research close to the business community that contributes to the advancement of knowledge.

Through the quality, diversity and originality of this dynamic organization, ESG's research activities bring together the talent necessary to find solutions to current managerial issues and make a significant contribution to improving our society in a sustainable and economically responsible way.
